TBPA Mission Statement

The mission of the Tennessee Backflow Prevention Association is to protect drinking water quality in the State of Tennessee by providing for education, statewide training, standardized certification, technical assistance and resources to our membership and the general public.

President's Message

The ABPA Annual Education Conference and Trade Show held in Phoenix, AZ the first of May was very informative and I brought back a lot of good information that I will try to share with you. First, congratulations to our Chapter for receiving a Presidential Award for Chapter Excellence (PACE) Award. This award goes to Chapters whose activities throughout the year have supported the organization and educated the public on ways to ensure our public water source remains safe.

A few presentations of note were Assembly Theft, Residential Risk, Conducting an Effective Survey, and Mobile Landscape Chemical Services and Their Hazards. The Assembly Theft presentation was by a detective with the Phoenix Police Department. Metal theft is at such a high level in that area, that they have a list of prohibited items that cannot be sold by the general public – backflows are on that list. They have found that spraying the device with bed liner paint is a deterrent to theft. Of course, you'll want to avoid the test cocks and serial number plate. The Residential Risk presentation, by an Illinois Master Plumber, was very enlightening. She indicated that those opportunities for risk have increased mainly due to the level of customization available to homeowners. The complete list she presented can be found on page 6 of this newsletter.

The other two presentations that I'll highlight here have to do with survey work. The first provided a list of items critical to being prepared for the survey:

- Make an appointment unless it is a problem facility
- Meet with the person who knows the facility, e.g. the piping
- Know the type of facility and their process beforehand
- Review plans/blueprints beforehand, if available
- Determine if the survey is for containment or isolation
- Watch your words – "I want to learn" and "I need to understand" are more likely to get information and results
- Success is based on corrections made after the survey

And the tools that will aid you in the performance of the survey:

1. Start at the potable entrance
2. Review checklist of potential cross connections
3. Laser pointer to follow piping
4. Review findings with the customer
5. Require definitive time frame for corrective action

The Tennessee Backflow News is published quarterly by the Tennessee Backflow Prevention Association, whose members have a common interest in protecting the drinking water from contamination through cross connections. Your ideas, experience and expertise are invited and needed by the TBPA to insure a balanced approach to backflow prevention in the State of Tennessee. Your participation and support will continue to help shape the future of this industry in Tennessee.

Opinions expressed in articles, letters or advertisements in this publication are not necessarily those endorsed or supported by the TBPA. The content of this newsletter is not to be considered as legal or professional advice. Dues are \$80 annually. Annual dues include \$20 for Tennessee and \$60 for National ABPA dues. National membership is required for Tennessee membership.

TBPA Middle Section News

Well, it looks like summer is upon us. For me this time of year represents irrigation backflow testing, a time that I get to interact with our residential customers the most. I try to take this opportunity to educate them about the importance of Backflow prevention and Cross Connection. I have found over the years that the more time I take to educate our customers the more responsive they are to Backflow Prevention. It is also a great way to do informal survey of your residential customers.

This is also the time of year to submit your nominations for the TBPA annual awards and also nominations for

Vice President and West Tennessee Director. Please call or e-mail your nominations to me or any board member by September 6th. Please don't forget to make plans to attend the Conference this year in Downtown Chattanooga. The dates are October 17th and 18th 2013. There is also a Board meeting that is open to all members on October 16th at 5:00PM at the hotel. I hope everyone has a safe and happy Summer.

David Risner
Middle TN Director

TBPA West Section News

Congratulations to TBPA for winning another PACE Award at this year's Annual Conference. Tennessee is one of the most active associations in the ABPA.

Register now for the upcoming 2013 TBPA Conference. We always have a great time in Chattanooga. Please remember the deadline for room reservations is September 20th. Be sure to mention you are with TBPA. Once again the TBPA Board has tried to hold down the conference cost – The registration fee will continue to be \$125 for members. We have speakers and topics planned that will appeal to everyone.

We need your nominations for Awards to be announced at the Conference. We want to recognize those in our association who have worked hard to promote our cause. Also, please submit nominations for the Board positions of VP and West Tennessee Director. Send all nominations to David Risner at drisner@murfreesborotn.gov.

Bradley Tomlin
West Section Director

WEST DIRECTOR & VICE-PRESIDENT NOMINATIONS

It is election time for the West Director and Vice-President of TBPA. Submit all Nominations to one of the Committee Members:

Kent Bowman (Chairman): drisner@murfreesborotn.gov
Bradley Tomlin: btomlin@jaxenergy.com
Chase Layne: chase.layne@amwater.com

Please submit before **November 1, 2013**.

TAUD
Training Station
Keeping you on track!

On the Mobile risk side, here are the types of vehicles you should keep your eyes open for: These types of water users were noted as potential for contamination

- Fertilizer spraying trucks
- Landscape companies
- Pesticides – Health Department mosquito sprayers, City horticulture trucks
- Sewer flushing trucks – need to inspect KUB sewer flush trucks to ensure air gap is maintained
- Mobile car wash, pet cleaning, carpet cleaning
- Any tank truck other than Potable water trucks
- Street sweepers
- Nurseries

The Tennessee Chapter Conference is coming up soon – October 17-18 at the DoubleTree in Chattanooga. This looks to be another worthwhile conference, with great speakers and topics. You don't want to miss it!!! Happy Summer.

Donna Maloy
President TBPA

TBPA Board Meeting Update - April 3, 2013

Treasurer's report

Account Balance \$11,707.72. This total includes an investment CD of \$5,500.00 and a checking account balance of \$6,207.72. Liba noted the IRS statement has been complete and filed.

Membership

We have not received 4th quarter membership dues from ABPA.

2013 Conference

Conference Location - Chattanooga, TN at the DoubleTree Hotel. Dates are October 17th -18th with the Board meeting on Wednesday the 16th at 5:00 PM. Room rate is \$129. Reservations should be made before September 20th. They have agreed to charge us the same price as the DoubleTree at previous conferences! \$500 Deposit has been paid to the hotel.

Board members are attempting to get speakers and topics together to put into next newsletter along with Awards and Election nominations.

Vendor fee will be \$300 and Member fee will remain at \$125 – Non-member \$205. Kitty will send Vendor information in June.

T-Shirts will be long sleeved with a pocket – Royal Blue with White lettering.

Awards & Nomination Committee

The two committees were combined with David Risner serving as Chairman. Bradley Tomlin and Chase Layne will also serve.

TAUD

will provide a \$25 gift cards for the winners. Kitty, Steve Betty and David Risner have agreed to attend and help.

ABPA Conference

Donna will attend the conference in Arizona. Board approved \$200 for Donna to spend on a silent auction item for the conference.

PACE Award

Donna mailed the PACE Award application in three-ring binders to National. They still have not developed the capability to receive the information electronically.

Region 3 Director

Donna reported that Ken Goergen will not be running for Region 3 Director for 2013 / 2014. She did discuss with Ken TBPA's frustration with the service that is provided at the National level pertaining to the ABPA News publication, timely receipt of membership funds, and the archaic process of the PACE Award application process. Ken assured us that he is discussing these items with representatives at the National level and will continue to do so even after his term is over. He reminded us that we do have access to resources through the National organization, i.e., USC, TREEO, etc. Donna agreed that we have taken advantage of those resources to the benefit of our membership.

NOMINATIONS FOR AWARDS

Each year at the Annual Conference the Tennessee Backflow Prevention Association gives awards to a deserving company and persons who have contributed to the field of cross connection.

Nominations should include a brief explanation stating the qualifications of the person / company being nominated.

- 1. Individual Award (Robert Lashlee Award):** Must have excelled over a number of years in the field of cross connection or the backflow industry. Recipient will be given a lifetime membership to TBPA. **
- 2. Individual Award:** Must have contributed outstanding work within the TBPA organization in the last 12 months. All nominees must be a member in good standing of TBPA.
- 3. Company or Water Purveyor Award:** Must have excelled within the field of cross connection and promoted TBPA within the last 12 months. All nominees must be a member in good standing of TBPA.

**** NOTE:** The Robert Lashlee Award is a Lifetime Achievement Award. The wording has been changed to reflect work in the backflow industry "over a number of years" and "the recipient will be given a lifetime membership to TBPA"

If you know of someone who meets these requirements please nominate them for an award. We are proud of our state and the contributions our members have made to the field of backflow and want to recognize their hard work.

Nominations committee members: David Risner, Bradley Tomlin, and Chase Layne.

Send nominations to David Risner at drisner@murfreesborotn.gov or phone for mailing instructions: 615-848-3222. Please submit nominations before **October 1, 2013**.

Residential Survey Items

The following is a list of residential risk items that can be used when conducting a residential survey. Consider looking for these items when determining if backflow protection is needed.

Bath:

1. Anti-siphon ball cocks in toilet
2. Bidets without built in backflow
3. Submerged inlet in sink bowls
4. Hoses in tubs that reach below overflow or submerged inlet

Kitchen:

1. Disposals without air gap
2. Direct-connect soap/chemical dispensers
3. Reverse osmosis systems
4. Water dispensers in fridges (filters not changed causing bacteria to build up)

Other:

1. Laundry tubs with hoses
2. Pet washing stations
3. Ice maker drains in floors
4. Water treatment device drains
5. Water powered sump pumps, boilers

Outdoor:

1. Water hose hazards from chemicals and pressure washers hooked to supply
2. Animal water dispensers
3. Water features
4. Water vacuum w/direct connect
5. Drain cleaning equipment
6. Campers
7. Home dialysis
