TBPA Mission Statement

The mission of the Tennessee Backflow Prevention Association is to protect drinking water quality in the State of Tennessee by providing for education, statewide training, standardized certification, technical assistance and resources to our membership and the general public.

President's Message

I hope everyone had a great summer with family, friends and vacations. As we head into fall, I am ready for a little cooler weather and some football. Our upcoming TBPA Conference is right around the corner. It will be in Chattanooga on October 13th and 14th. The registration deadline without a late fee is October 5th. Come early on the evening of the 12th and join us for the Board Meeting at the hotel. I hope you will make plans to attend.

Remember the deadline for the guaranteed conference rate at the DoubleTree Hotel is September 21st. You must mention TBPA when you register. The rate of \$149 per night is good for 3 days before and 3 days after the conference.

If you plan to stay extra days, Chattanooga has many local attractions to enjoy. It is only minutes from Rock City, not to mention the Tennessee Aquarium and all of Chattanooga's riverfront attractions.

We need your nominations for the annual TBPA Awards. If you would like to recognize a member for their service to the field of backflow or a Company / Water Purveyor please do so. You can find the explanation and qualifications of each award in this newsletter. Send your nominations to David Risner at drisner@murfreesboro.gov before October 1st.

The TBPA will have elections for the East and Middle Tennessee Directors this year. If you or someone you know would like to be nominated, these should also be sent to David Risner at drisner@murfreesboro.gov. This is a chance for you to be involved....it's your association.

See you on October 12th at 5:30 at the Hotel for the Board meeting and especially at the Conference.

A MESSAGE FROM THE TBPA VICE-PRESIDENT

I know supper is almost behind us but we still have some hot weather ahead in parts of the State. To all those still testing and working outdoors, remember to stay hydrated.

A lot of us work alone so continue to recognize the signs of heat stroke: high body temperature, altered mental state, nausea & vomiting, flushed skin, muscle weakness, cramps, racing heart rate and headache to name a few.

If you or someone else is experiencing these symptoms, seek immediate medical help.

I hope everyone has a safe ending to the summer season and fall. Please remember to join us at the Board Meeting and Conference next month in Chattanooga.

Bradley Tomlin
